

# S. Carolina Health Disparities: Prevalence of PAP Screening (Past 3 Years), Women Ages 45+

Source: DHEC BRFSS

\* Question not asked on 2001 and 2003 BRFSS

- Percentage of women age 45 and older who received PAP screening has slightly increased from 1995 to 2004.
- Blacks and Whites continue to have similar proportions of women receiving PAP screening (Y2004 WF:BF Relative Ratio = 1.00).
